## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 1, 13, and 19 are allowable generic claims. Claims 4-7, and 10 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on October 25, 2004 is hereby withdrawn.

### ***Allowable Subject Matter***

2. Claims 1-20 are allowed.

### ***Response to Arguments***

3. Applicant's arguments, see page 18, lines 8 to 15, filed April 14, 2005, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn.

## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Before "The injector" in line one of claim 20, insert --(new)--

2. The following is an examiner's statement of reasons for allowance: U.S. Patent No. 6,079,636 to Rembold et al. does not disclose in the specification nor show in the drawings an air reservoir in combination with a piezoelectric actor body, an injector housing surrounding the actor body to define an intermediate, and an inert, non-electrically conductive fluid sealed in the intermediate space, as recited in claims 1, 13, and 19 of the instant application. Therefore, Rembold et al. does not anticipate the instant application. Furthermore, the air reservoir is not rendered obvious by the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
